

# The Biggest Game In Town

## Comprehensive Annual Financial Reports

### *The Biggest Theft In World History*

By Walter J. Burien, Jr.

Every city, county, state, and the federal government keeps a **second set of books** which track the multi-**trillion** dollars in tangible wealth they have built up in these virtually hidden portfolios initially coming from investing **your** skimmed tax money for over 50 years in everything from real estate to the stock market.

Your city, county, state, and federal governments have **lied to you** for decades. There is no **need for taxes**. Our governments are not broke, they are rich beyond measure with **our** money, and they are hiding it from the American taxpayer while pleading they are broke and need more taxes, bonds and levees to survive. This being done as they blindly justify their obscene growth. There is enough aggregate wealth owned by our government agencies **to abolish all property and income taxes today**. You are being conned, lied to, ripped off, and financially raped.

### **This can't be true ... can it?**

Visit your local library or if you have a computer, type in "Comprehensive Annual Financial Reports" to any search engine and the links will astonish and alarm you.

Arrogantly they display their accumulation of wealth though investments and taxation while continuing to raise taxes claiming there's not enough money to fix the roads, schools or any other ploy to manipulate American citizens. Or they just raise taxes again and again until someone is not able to pay and property is taken or some other nasty event takes place

## **Balance the budget, balance the budget!**

The public only hears about balancing the budget.

Here's a little story to explain. *Say I make \$1000 dollars (Federal Reserve Notes) a week and our weekly family expenses total \$100 dollars. We hold regular meetings and discuss our \$100 weekly budget. One week my wife needs to spend \$110 dollars that has not been budgeted for. We go round and round about being over budget. I ask her to get **another** job. We look for where we can get extra money. All the time I never mention the \$900 dollars in my pocket or the secret accumulation of it.*

This is a simple story but it is the exact ruse being used on the citizens of the united States.

Please visit [www.infowars.com/videos.html#cafr](http://www.infowars.com/videos.html#cafr) or call 1-888-253-3139 to order the video that exposes this in great detail.

## **What can "We The People" do?**

Petition your congressperson to expose this injustice. Visit public hearings, town hall meetings or press conference and ask elected officials about the CAFR's. All they will talk about is the budget.

In our Constitutional Republic form of limited government, "We The People" are the ones in control. Read the constitution and bill of rights.

Contact your congressperson. Get vocal and do not be afraid. We left Great Britain because of taxation, there is no place else to go. We must stand up and regain control of our nation.

*Fill in your signature,  
cut and mail (preferably registered) the following to your congressperson.*

I, \_\_\_\_\_, hastily  
request that the Congress of the united States take  
actions to expose and end the fraud and theft of the  
citizens though the Comprehensive Annual Financial  
Reports.

*Fraud and theft are criminal acts and any  
entity engaged in such activity should be prosecuted*

## Get educated and be a part of united States history and join the Revolution
