

# G2X™

## SINGLE & DUAL OUTPUT LED FLASHLIGHTS

G2X Tactical

G2X Pro

**Model Number:** G2X-A-BK (Tactical)  
 G2X-B-BK (Pro)  
**UPC Number:** 084871315357 (Tactical)  
 084871315395 (Pro)  
**MSRP:** \$55.00 (Tactical)  
 \$65.00 (Pro)

SureFire's G2X™ LED illumination tools share many features, such as virtually indestructible high-efficiency LED heads, 200 lumens of maximum output, deep micro-textured reflectors, and sleek Nitrolon® polymer bodies. Their differences let you select the ideal light for your needs. Single-output or dual output. Press/twist tactical tailcap switching or press/click switching. They're ideal for outdoor use, especially in cold-weather situations, as well as being perfect for emergency preparedness, everyday-carry needs, and being well-suited for first responders.

**The G2X Tactical** provides a single output level—a brilliant, penetrating 200-lumen beam. It features a lightweight, high-strength Nitrolon® polymer body that's comfortable to hold in cold-weather and our classic tactical tailcap switch—press for momentary-on, twist for constant-on.

**The G2X Pro** is a dual-output version that features the same lightweight, ergonomically shaped body. It boasts the same 200 lumens of max output but it also features a useful low-output mode that lets you extend the runtime per set of batteries. The G2X Pro comes with a press/click tailcap switch.

### FEATURES & BENEFITS

- Virtually indestructible LED emitter regulated to maximize output and runtime
- Two output levels—high for maximum light, low for extended run time (G2X Pro)
- Precision micro-textured reflector creates smooth, optimized beam
- Tough, lightweight Nitrolon® body
- Weatherproof O-ring and gasket sealing
- Backed by SureFire's No-Hassle Guarantee
